## Base Development / Planning

### Community Newsletter

Newsletter Requests: Please send your comments to Tracy Wang (tracy.g.wang@navy.mil).

- Please send names and short bios on new employees for the Welcome Aboard section
- Please send current news items that would be of interest to those in our Community.
- Please send Kudos for jobs well done by our Community members.
- This newsletter will be sent out every 2-3 months so keep submitting input. Thank you!

## NAVFAC ALIGNMENT

### From NAVFAC Brief to CNO, 25 February 2004:

For more details and information go to: <http://www.lantdiv.navfac.navy.mil/servlet/page?>

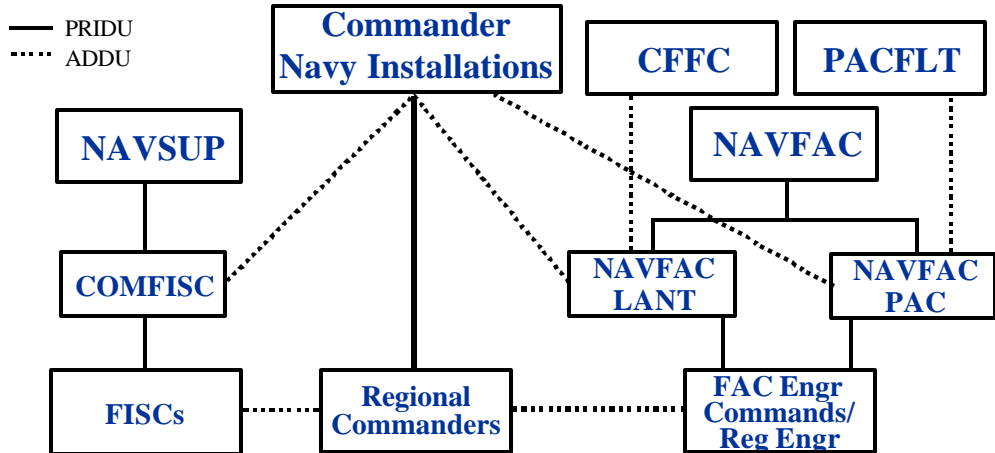

#### From CNI, RADM Chris Weaver:

The below slide shows a new Navy Shore organizational alignment and reporting relationships in support of CNI and the Regions. This organizational concept was created by RADMs Dan McCarthy, Mike Loose and myself. This model was briefed to CNO at both the CNI Echelon II brief and most recently, at NAVFAC's 2nd Echelon II brief. CNO favorably endorsed. This realignment creates Civil Engineering and Supply enterprises that "intersect" CNI's enterprise, the net result being mutually beneficial and even synergistic support among these partners in the "Shore Support Domain."

This arrangement enables more streamlined alignment, increased accountability for output, efficiency, and effectiveness for the Navy, provides the Regional Commander with one NAVFAC touch point, brings engineer/acquisition assets more directly to bear in support of the Region, and models the NAVSUP/COMFISCs reporting relationships to CNI/Regions.

NAVFAC and I are staffing a message for OPNAV release and working on details of stand-ups in Norfolk, Great Lakes, Yokosuka, and Washington in FY04. Appreciate your support as we implement this important initiative.

## Aligned Navy Shore Establishment Support Domain

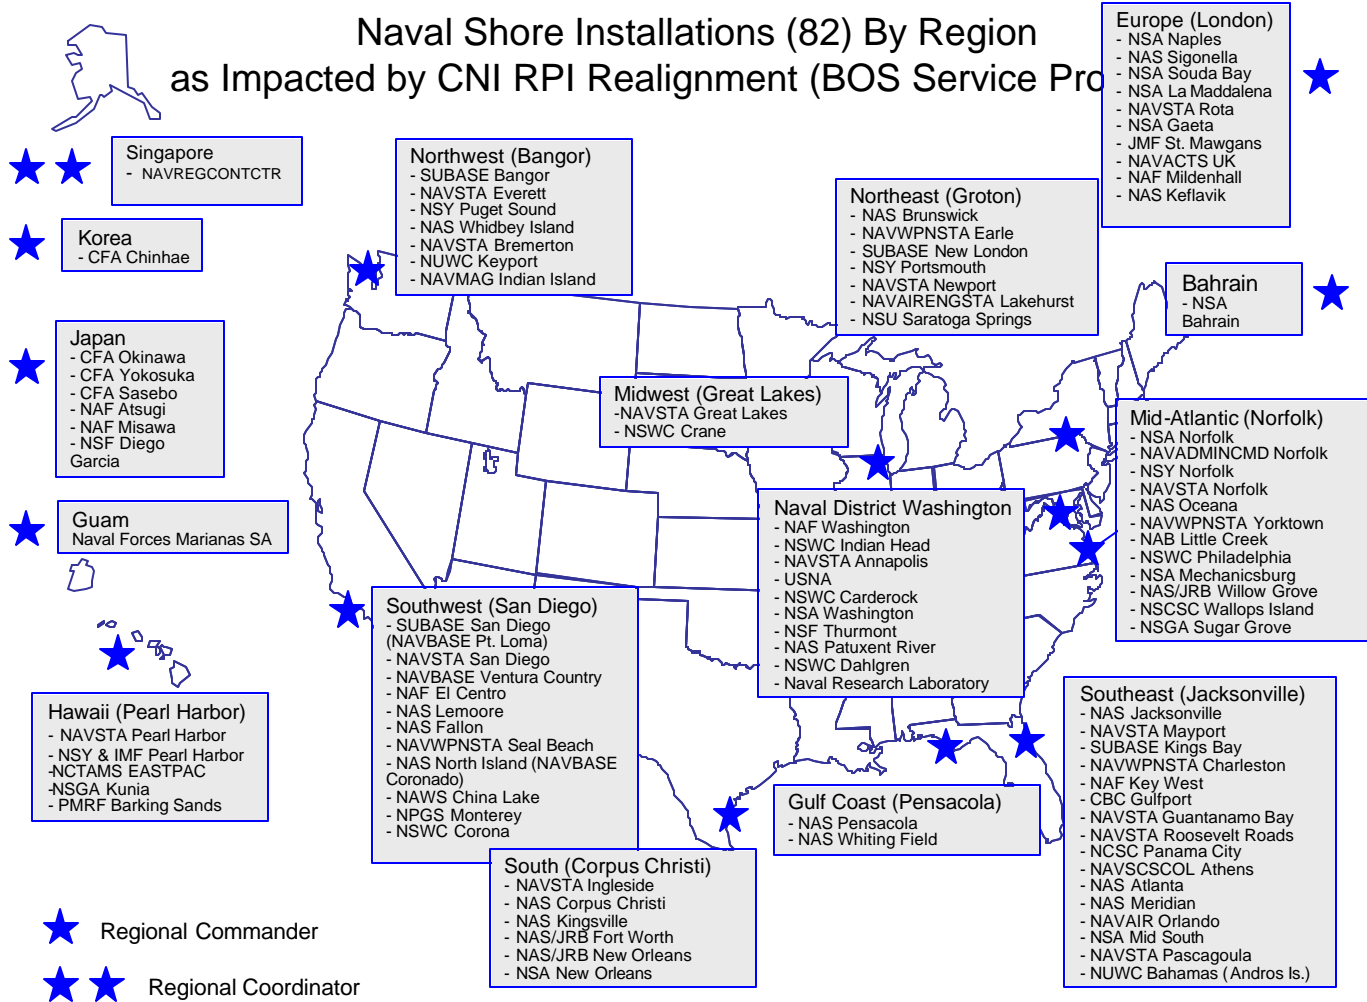

- FECs OPCON/ADDU to Regional Commanders and PRIDU/ADCON to NAVFAC LANT or PAC
- ACQ and Real Estate contract authority preserved
- USMC support maintained

- Establishes clear authority/ accountability to drive change and achieve Navy-wide savings
- Reduce from 25 to 16 Commands
- NAVFAC LANT/PAC are OPCON/ADDU to CFFC/PACFLT and PRIDU/ADCON to NAVFAC

## Regional Alignment:

### Excerpt from CNI RPI Guidance dtd Feb '04:

#### Proposed changes

#### Real Property Inventory Guidance for CNI Implementation

The purpose of this document is to provide detailed guidance on the transfer of all Class 1 (land) and Class 2 (buildings, structures and utility systems) Real Property Inventory (RPI) from the eight divesting installation management claimants to Commander, Navy Installations (CNI) and the applicable Navy Region. The exceptions to this are non Navy Security Group Activities, NAVAIR and NAVSEA GOCOs and NAVFAC BRAC. Also BUMED activities, which are treated by separate guidance. Divesting claimants and regions shall adhere to the following set of policy guidelines and definitions to ensure that consistent interpretation of the data elements in the Internet Navy Facility Assets Data Store (iNFADS) is achieved.

Uniform application of these guidelines and definitions is essential to providing accurate data for managing the Base Operations Support (BOS) and Sustainment, Restoration and Modernization (SRM) planning, requirements, programming, and budget processes.

If you have any questions regarding this guidance the Primary POC is Mr. David Carver (dave.carver@navy.mil) and the Secondary POC is Mr. Greg Nishimura (gregory.nishimura@navy.mil).

## Explosives Safety Notes, from Jack Bain:

NOSSA requires ESO signature on bottom of Part II Div.A site approval form. NOSSA will return Site Approval Requests without this signature.

Following information taken from NOSSA/G. Hogue briefing:

Explosive Safety Site Approval Content

Tell Everything....Without asking

Discuss all Facilities within IBD

Address PTR, ILD and IMD

Utilities, Lightning Protection, Grounding

Latest Criteria considered (C/D 1.2, Inert Storage, Explain in detail questionables

Supporting documentation included

MAP ACCURACY IS A MUST !!

An excellent resource NOSSA recommends for planning window design, relative to blast mitigation is WINGARD found at the GSA site: [www.oca.gsa.gov](http://www.oca.gsa.gov) . Though we have not seen the software yet, it may be of value as an AT/FP planning tool.

Change in Training Requirements: Explosive Safety for Naval Facility Planning (AMMO 36) Class provided by DAC/ NOSSA. Previous training requirements were for planners to retake this course class every 5 years to maintain familiarity with changing guidance. Beginning in FY05 a computer based training (CBT) CD will be available which will be a substitute to retaking the course every 5 years. Planners & engineers who have not yet taken the course will still be required to attend the AMMO 36 course for their initial training.

**BD3 Moves to EV !**

Excerpt from NAVFAC Atlantic Vice Commander Memo:

Recent NAVFACENGCOM-wide decisions set a course of action to organize and best align Engineering Field Divisions (EFDs) to enhance focus on our clients and balance product delivery efficiency and effectiveness. The transfer of Environmental Planning functions from BD to EV will consolidate all environmentally related activities in one area and provide an organizational structure that is consistent with other EFDs.

Effective 7 March 2004, the Environmental Planning Branch is transferred to Environmental Services.

## Base Development Retirements, Pictures:

EFD Atlantic Retirements:  
Mr. Dave Carver  
Mr. Paul Schember and  
Mr. Larry Peacock

EFA Chesapeake Retirements:  
Mr. Bill Faught and  
Mr. Bob Schwarz

**Welcome Aboard / Farewell**

- Welcome to the new NAVFAC Business Line Leader (BLL) for Base Development: **Mr. Steve Iselin**
- Welcome to the new EFA Chesapeake Business Line Coordinator (BLC) for Base Development: **Mr. Kurt Kuhn**
- A very warm welcome to the new employees in EFD Atlantic, Base Development BD1/BD2: **Haider Haider, Karla Brown, and Kim Barbish!**

**Kudos / Congratulations**Professional Registration:

- Congratulations to **Brian Brown** for earning his PE!

Congratulations:

- Congratulations to **Tracy Wang** and **Whitney Katchmark** on their recent promotions to GS13 in Base Development.
- Congratulations to **Jane Brattain**, AICP who was elected in March to the Chair Elect Position of the Federal Planning Division of APA.
- Congratulations to **Brenda Jenkins, Bill Pagtalunan, Jim Rowell, Linda Shepard, and Tracy Wang** on their length of service awards.

Moves:

- **Courtney Harbison** will be moving to BD2 this summer (after maternity leave) as a Criteria Manager.
- **Rick Butler** will assume the responsibilities of the Hampton Roads IPT Planning Business Line Coordinator (BLC)
- **Tracy Wang** will assume the responsibilities of the BDA.
- **Virginia Hawley** will be moving to BD1 in April as a Criteria Manager.
- **Tony D'Agnew** and **David Barr** move from EFD Atlantic Base Development employees to EFA Northeast Base Development employees.
